MARATHON.

"FITZ" GOES TO SEATTLE.

Fitz, Oct. 13-A big Marathon race is to be a fitting conclusion to the Seattle exposition, and Fitzgerald, the Calgary runner, has left the city to participate in the contest.

That Fitz is up against an even opponent, is evidenced by the following list of competitors: Strabo, St. Yve, Johnny Hayes, Morley, Tom Walsh, the Alaska runner, Art Burr, Stanley and Bourdette.

The distance is the regular Marathon race of 26 miles, 385 yards, and while this is his first Marathon race, the Calgary runner will enter the contest with good chances for distinction. Fitz has never been defeated in his limit which is fifteen miles. He won two races in the Olympic games of 5 miles distance and also got the better of Art Burr in a 6-mile run.

He beat John D. Marsh in a 10-mile limit, and the great Strabo himself, went down before the Calgary runner in a 15-mile race in Winnipeg, Manitoba. However, going out during the race, the study above was beaten by Fitz in a 10-mile run and Seymour, of Scotland, the champion of the Olympic games, reached the tape behind Fitz in a 5-mile race.

In the half, 5, 10 and 15-mile limits in the Olympic games, Fitz was first, the undefeated champion of Alberta. The most dangerous competitor in the coming Seattle Marathon, Fitz considers to be St. Yve and Marsh.

THE RING.

THE JOHNSON-KETCHUM FIGHT.
San Francisco, Oct. 14-There was a rumour along the streets late last night that there was a hitch in the Johnson-Ketchum contest. Calhoun, it was said, could not get an excited state about it in a short time and so several newspaper men "There may be no fight, I will tell you more about it tomorrow." Then he went away in an automobile presumably for a conference with Johnson as a telephone message to the champion quarters said that he had an engagement with Calhoun and had gone on ahead to it.

It was immediately surmised that the trouble was over the side bet. In this connection it was learned that Johnson had received notice from the principals yesterday night that a final stakeholder had been selected. This was in accordance with the demands made when the Fergus first match was made. I decided to hold the money when it was one of the boys, and have secured the principals respectively. Willis Britt said tonight over the telephone that he had not heard of any trouble and he hardly thought it could be in connection with the side-wager. "Our \$5,000 is up, a final stakeholder has been selected and we are willing to take a chance," said Britt.

ATHLETICS.

The first of a series of observations here to local factories and other places of interest will be taken tomorrow when 20 of the members of the boys' club will visit the J. K. Griffin Packing Plant. The party will leave the Y.M.C.A. building at 8 o'clock.

IMPORTANT LIEN NOTE CASE.

A small debt case in which the point at issue was one of unusual importance was heard in the District Court this morning before his Honor Judge Lee.

The case was that of Handing vs. Langmead. H. L. Langmead, the defendant, does business as a merchant at Medicine Hat. The plaintiff, W. D. Handing, who lives at Peace at Newell, bought goods from Langmead, giving him two lien notes, amounting to \$100 in payment for them. The same notes covered a cow and heifer belonging to Handing, which were not bought from the defendant.

Langmead, the notes were issued as security. On a certain day Langmead seized the cow and heifer under his note right of seizure thinking the instrument was valid. The plaintiff brought action for the recovery of the cattle or the value thereof.

J. D. Haydman, who appeared for the defendant, contended that though he was not a lien note as a lien note it still expressed the intention of the parties, and was a negotiable, chattel mortgage.

H. E. Landry, who acted for the plaintiff, contended that the note had been paid in full and that the seizure of the cattle under it had been illegal. The further contended for the plaintiff that the note covered all past and future indebtedness and held that as the payment of the note had been made in full and the seizure was therefore illegal.

Judge Lee was given for the plaintiff for that the note was a negotiable, chattel mortgage and that the seizure was legal. The case was adjourned to the 23rd for the action on the small debt note.

Mr. Haydman's application for leave to appeal was refused by Judge Lee.

THE FERTILITY OF THE NORTH

Results of Recent Exploration as Published in "Canada" the English Publication Given Over to the Interests of the Dominion.

With every year the frontiers of undeveloped land are pushed further back, and with each report of the geographers further away the river that is the source of agricultural development are brought to knowledge. It is a strange record, this of the land, current, a few years ago, held, too, by men who had had extensive experience upon the prairie, that the country between Regina and the Rockies was absolutely no good for grain-growing, and could only be used for grazing purposes. Now the district characterised as "no good" has developed into one of the best grain-growing sections of the Dominion.

So in a few years it will be strange to read of a farmer, in the Churchill River valley or in the Peace River valley, in the fall and winter of the year, that the Dominion's agents are continually discovering, and which has, up to the present, been either ignored or condemned for no reason at all.

The section traversed by Mr. Owen lies between latitudes 52 and 67, which in range includes "Northern Saskatchewan," the northernmost of the Dominion's provinces, and the Pacific province, the Inuit.

The Pacific province, the Inuit, has been, up to the present, been either ignored or condemned for no reason at all.
